### Job Description

Endress+Hauser (Ireland) Ltd Global Logistics Operations Center based in Exchequer House, Embassy office park, Kill, Co. Kildare, W91W866 are currently recruiting for

Freight Settlement/Data Analytics Experts – Global Logistics Operations Centre (G-LOC)

- Annual Salary €50k DOE + Benefits
- Hours of Work 37.5 hours weekly

#### Your Tasks

- Support in setting up standard processes and documentation like SOPs for rate structure systems of our Global Logistics Portfolio
- Read quotations from procurement and define, create, and maintain the price components for Transportation
- (Courier, Express Road, Air Ocean, Rail) and Contract Logistics Services
- Admin and monitor duration of rate agreements with suppliers.
- Monitor LSP(Logistics Service Provider) invoices in different document types (pdf invoice, CSV validation) in context of content (charge codes) and format, re-upload if necessary
- Review invoice discrepancies and lead communication to LSPs for clarification
- Pro-actively check whether the invoices have been received from providers on time beginning of the month
- Record Spot market prices reported by via ticket or other IT systems and execute settlement
- Develop and set up reporting, dashboards to measure KPIs in conjunction with management(eg. Invoices delivery, Currency)
- Onboarding and Training of new LSPs
- Quantitative ad-hoc analyses, using visual analytics, development of algorithms and machine learning as appropriate

- Data visualization, including creation of dashboards (mainly using Tableau Software) in the context of Logistics Service, both financial and non-financial
- Close collaboration with the business teams to understand business challenges and find solutions through data analytics

#### Your Profile

- Bachelor in Logistics or Data Analytics matched with relevant professional experience
- Strong experience in freight forwarding with a strong data analytics affinity and secondary education or an accounting background with focus logistics and freight costs
- Knowledge of rate structures and day-to-day logistics operations to put freight settlement in context preferred.
- Experience in Master data creation around rates in business IT partner's Logistics Cost Management Tool or experience with comparable freight settlement tools
- Strong sense of confidentiality and diplomacy. Experience handling sensitive data
- Very good communication skills and convincing internal and external people to follow the freight settlement process
- Good knowledge of Excel or similar (PowerBI and Tablau etc) are desirable
- Fluent spoken and written knowledge of English, with a second language relevant to our markets e.g. German, Chinese, Italian or Eastern European language are desirable.
