Production planner (FR speaker)

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Based in Dublin, TLSE is the Irish subsidiary of a European industrial group (Talbot Industrie) operating in the marine, entertainment and handling markets with a premium niche products portfolio (www.goliath-store.com).

Leader in our markets (European), the distribution of our products is based on a strong partnership with a dense distribution network, and a complete and innovative range of products and services.

Settled in 4 countries, we have offices in France, Italy, Luxembourg and Ireland.

With 150 employees spread among 5 offices, we work daily with multitasking teams in a fast paced and innovative environment.

We believe in employee progression and recognising performance; we enjoy working hard, smart and having fun.

If you are ambitious, results focused and enjoy a challenge, you will enjoy working with us.

This position, associated with the upstream piloting of the factories, must serve in the short term as a springboard towards the functions of management of technical, design or production teams.

The missions:

You will be in charge of production planning for 3 of our factories manufacturing boat trailers (in France / Italy). Your tasks will involve:

Production planning: launch work orders as well as purchase orders remotely for 3 different factories;

Coordinate and monitor supplies;

Organise production orders for workshops;

Liaise with production teams/managers on-site (priorities, timeframe, organization);

Manage products databases and planning criteria;

Optimise intra group flows and stocks;

Analyse production statistics and implement strategies according to seasons, stock levels, customers' needs, etc.

What we offer:

International and young expanding working environment,

Different manufacturing processes and varied product lines,

Multitasking and team working atmosphere,

Opportunity for a management career path.

What we are looking for:

Engineer or supply chain training with prior experience in industrial CAPM,

C1 + English / French level,

Mobile with a desire to move within the different sites,

Hardworking and determined, you go to the end of things (problem solving vs identification),

Rigorous and organised, you know how to manage your priorities and are comfortable with multi-tasking.

- **Sector:** manufacturing
