Oem Engineering Technician - Apprenticeship

Job Description

Premier Energy Storage Ltd is seeking a motivated and hardworking individual to join our team as a First-Year Apprentice. This apprenticeship will provide hands-on experience and structured training in energy storage technologies, allowing the apprentice to gain essential industry skills.

Responsibilities:

Assist in the installation, maintenance, and testing of Fuel Handling systems for critical power and data applications

Follow safety procedures and company guidelines while working on-site.

Learn and develop technical skills under the guidance of experienced professionals.

Support daily operations, including Installing Pipe systems, Pumps, Electronic Gauges & Alarms, inspecting, and troubleshooting components.

Attend scheduled training and complete coursework as required by the apprenticeship program. (3 Months per Year based in Monaghan)

Requirements:

Strong willingness to learn and develop skills in the energy storage industry.

Good communication and teamwork abilities.

Basic understanding of electrical, mechanical, or engineering concepts (preferred but not required).

Ability to follow instructions and work safely in an industrial environment.

No prior experience necessary—training will be provided!

Benefits:

Structured apprenticeship training with industry experts.

Competitive salary and career progression opportunities.

Hands-on experience in a fast-growing sector.

Opportunity to work in Ireland, UK & Europe
