Job Description

HML was established in 1987 and provides groundwork, civil engineering, construction and plant hire. We demonstrate a culture of excellence in all areas and proudly place client satisfaction at the very heart of our business.

Your role as Heavy Plant Fitters will involve Electrical & Mechanical maintenance and repair of our Plant Machinery, such as Compactors, Diggers, Front Loaders etc

This is a permanent, Full-time position.

Salary negotiable depending on experience. Starting rate €38,000 per annum.

Duties include but are not limited to:

Maintenance installation, diagnostics and repair of service plant and machinery, engines and hydraulics – electrical and mechanical

Fitting and assembly of parts and/or metal subassembly to fine tolerances

Examination of drawings and specifications to determine appropriate methods and sequence of operations

To ensure preventative maintenance, repair work, overhauls and installations as appropriate are carried out

Fault find mechanical, hydraulic and basic electrical faults and repair equipment in breakdown situations

Clear understanding of Diagnostic equipment and procedures

To anticipate, report or repair any equipment requiring remedial work that may affect the continuity of Plant operations.

To complete accurate records for all work completed using Service and Inspection schedules.

To identify and maintain quantity and functionality of tools and equipment

The ideal candidate must have:

Problem solving skills

Great attention to detail

Fluent English

Previous experience in a similar role

The above is not an exhaustive list of duties and you will be requested to perform different tasks as necessitated by your changing role within the organisation and overall business objectives of the organisation.
