Procurement Business Analyst

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Responsible for the procurement of owner furnished contractor installed (OFCI) equipment for multiple data centre projects across EMEA region.

Manage the supply chain of OFCI equipment for multiple data centre projects across the AMER, EMEA and APAC regions.

Responsible for the end-to-end bid analysis process, from prequalifying and shortlisting suppliers through to negotiating with suppliers, analysing suppliers' value and ranking, communicating the award recommendation to the selected supplier, and managing the contract between client and supplier.

Gather, analyse, and provide data insights to support business decision-making, business improvement, cost savings and risk reduction, procurement planning, and new procurement initiatives in accordance with business objectives, policies, procedures, and strategic priorities.

Undertake research, consultation, reviews, forecasting, quantitative and qualitative analysis, and benchmarking to provide advice and support to businesses.

Create data reporting and key performance metrics to measure and monitor procurement functions across the organization.

Support the preparation of business documents and reports for senior management, including presentation of information where required.

Contribute to a work environment of continuous review and improvement of business practices and tools, operational processes, and service provision.

We submit this job position comes under Employment Code 2423 - Management Consultants & Business Analysts.
