i-FIT (All Female) Software Development Associate Apprenticeship

Job Description

The i-FIT Software Development Associate Apprenticeship is a dedicated, all female, two-year programme designed for those who have recently completed second-level education or female learners seeking to retrain. It is a dual-education programme involving both college-based and workplace learning. This college-based learning is state funded and tech apprentices receive a salary from their employer while on the programme.

Successful completion of all modules on this programme results in the attainment of a Quality and Qualifications Ireland-accredited Advanced Certificate in Computer Programming, which is placed at Level Six on the National Framework of Qualifications.

Minimum candidate entry requirements are as follows. A successful candidate:

Will be required to complete an initial aptitude test;

Must have achieved a passing grade (or O6/H7) in 5 or more subjects, including Mathematics and English (both at Ordinary Level or above), in the Irish Leaving Certificate;

Must be eligible to participate in Further Education and Training programmes; and

Applicants must be legally entitled to work within Ireland and the EU.

The i-FIT Apprenticeship will be a part online, part in-person programme. We are accepting applications from any female candidates that would be able to commute to Dublin for 5 in-person days. The exact location will be disclosed at a later date.

For more information please see apprenticeship.ie

Note: As part of the national apprenticeship system, there are formal requirements for approval of an employer's suitability to train apprentices and for registration of apprentices. Advertising on this site does not guarantee that Employers are approved to recruit and train for apprenticeship positions.
