Mechanical Maintenance Technician

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Location: Donegal Road, Ballybofey, Co. Donegal F93 F223

Reporting To: Head of Engineering

Hours: 40 hours per week

Pay: €34,882 Annually

Contract: Full-time, Permanent

P Mulrine & Sons Sales is Ireland's premier juice production company, established in 1919. With over a century of experience, Mulrines now employs a highly motivated workforce of more than 220 people, operating from two major sites in Ireland, including our HQ in Ballybofey and our orchards in Kildare.

We are seeking a skilled Mechanical Maintenance Technician to join our busy manufacturing team in Ballybofey. This role involves supporting the ongoing maintenance and smooth operation of production machinery to ensure high availability and performance.

Duties to include -

Perform routine and planned maintenance on mechanical equipment including conveyors, pumps, gearboxes, and hydraulic systems

Diagnose, troubleshoot, and repair mechanical faults to minimize production downtime

Collaborate with engineering and production teams to support equipment improvements and upgrades

Manufacture or modify spare parts using workshop machinery where required

Maintain detailed records of maintenance activities and ensure compliance with health, safety, and quality standards

Participate in shutdowns, machine installations, and changeovers as necessary

Support and train junior team members and operators on maintenance best practices

Minimum of a Trade Certificate or Apprenticeship qualification in Mechanical Fitting, Fitting & Turning, or related discipline

At least 5 years' experience in a maintenance fitter or mechanical technician role within manufacturing, packaging, or similar industrial settings

Strong practical knowledge of mechanical systems including pumps, valves, gearboxes, belt drives, and conveyor systems

Experience using machining tools such as lathes, milling machines, and grinders is desirable

Good understanding of safety procedures including Lock Out Tag Out (LOTO) and permit-to-work systems

Ability to work effectively under pressure and in a team environment

Flexible to work shifts including evenings and nights as required

Work within a supportive and safety-focused environment

Opportunities for professional growth and technical training

Mulrine's is an equal opportunity employer committed to diversity and inclusion
