## Senior Surveyor

### Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

### Job Description

Multiple Locations :

- Co. Kildare,
- Co. Cork,

The Opportunity:

Due to continued business growth, we are looking for Senior Surveyors to join our Survey & UAV department based out of our Head office in Kilcullen. This role is largely field based and is a great opportunity for someone with previous experience in surveying looking to progress their career and be involved in some of the most prestigious projects within the expeditious Geospatial industry.

What will I be doing in my new role?

- Ability to lead and setup survey projects.
- Undertaking various types of surveys sessions using a variety of specialised and exciting equipment and technology
- Work with modern survey methods and survey devices such as total stations, GNSS and data collectors.
- Establish survey controls, setting out gridlines, levelling, traversing and other land surveying work.
- Record surveying information accurately and consistently on site to the agreed specification and scope
- Process data from the field into the office, post processing with software, such as AutoCAD
- Assist with detailed field and office surveying assignments.
- Ensure that all survey kit is maintained and well kept.
- Deliver to company policies, procedures, standards and best practices.
- Any other duties as required by the business

Requirements of the role:

- A minimum of 3+ year's site survey experience using topographical instruments
- Very good level of English (written, written, speaking)

- Physically capable to carry out the role
- Full clean Irish/EU manual driving licence
- Relevant Qualifications and/or relevant experience
- Experience of working to high safety standards.
- Knowledge of Microsoft Office – Word, Outlook, and Excel.
- Knowledge of role related post-processing software.
- Strong technical knowledge.
- Flexibility to travel nationwide as required by our clients.

What key attributes do I need?

- Ability to work on your own initiative as well as working within an existing team
- Excellent communication skills, both written and verbal
- An ambition to learn and develop
- A flexible, positive attitude towards work and be a team player
- Strong organisational and time management skills

- **Sector:** construction

### **Career Level**

- Experienced [Non-Managerial]
