## Construction - MEICA Project Manager - Covering out Muster Region

### Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

### Job Description

Main Duties and Responsibilities:

Work as part of a team in the delivery of one or more projects at any one time, embracing the

ethos of a "one team" culture.

Ensure Health, Safety, Environmental & Sustainability standards, policies and procedures are

always adhered to on-site.

Instil a positive Health and Safety culture within the team in their thinking and actions.

Work closely and collaborate with all key stakeholders including clients, client representatives

and third-party agencies.

Ensure a positive experience for the client and their representatives instilling an ethos of

collaboration and cooperation.

Lead the construction team in all aspects of the MEICA scope of works.

Liaise closely and support other engineering disciplines including civil/building engineering

and the process teams.

Facilitate the co-ordination role of the PSDP for live projects with internal and external

designers. Represent the company as PSCS on live sites within your remit and co-ordinate all

required documentation to be present on-site and up to date.

Conduct regular Health and Safety inspections on live sites as well as conducting and leading

toolbox talks and white-board meetings.

Ensure best practice project management techniques are used such as Lean Construction and

Last Planner.

Monitor project performance including risk and opportunities. Mitigate/reduce risk where

possible and manage opportunities.

Report on the monthly performance of your project to the framework manager including

performance against programme, budget and HSQE.

Lead the team in the procurement of supplies and sub-contracts on time and within budget.

Manage cashflow on projects and work with the Contracts Manager/ Commercial Manager to

ensure interim payment applications are submitted on-time to the client.

Build and promote industry-leading teams by providing training and mentoring of staff

including setting out development plans for your team.

Provide an active involvement in resource management and recruitment within your team as

a hiring manager.

Provide assistance, oversight and guidance from time to time on tendering opportunities for

new upcoming projects.

Respond to and address any client and stakeholder complaints in a timely manner. Obtain

client satisfaction surveys and provide any feedback on how to improve our client satisfaction.

Seek to improve the project delivery process by providing lessons learned feedback and

innovative solutions for adoption on future projects.

Keep appraised of the latest standards and technology through continuous professional

development (CPD).

Other duties as required from time to time

Knowledge, Skills, and Experience:

5+ years of experience, preferably in water and wastewater industries.

Strong knowledge of Safety, Health & Welfare at Work (Construction) Regulations 2013.

Experience in MEICA engineering.
