Software Development Apprenticeship - All Female Cohort CORK - Oct 2025 - Apprenticeship

Job Description

** PLEASE APPLY FOR THIS TECH APPRENTICESHIP PROGRAMME DIRECTLY ON THE FIT WEBSITE: https://fit.ie/apply-for-ictap-tech-apprenticeship/ ?campaign=sdindeed **

i-FIT all Female, Software Development Associate Apprenticeship

FIT have an exciting opportunity for female tech enthusiasts living in CORK and surrounding areas. We are now accepting applicants for the i-FIT programme, with an opportunity to work with a leading company based in CORK. Successful candidates will be required to attend a number of in-person training days in DUBLIN throughout the two year programme.

Overview

The Software Development Apprenticeship is a two-year programme designed for those who have recently completed second-level education or mature learners seeking to retrain. It is a dual-education programme involving both college-based and workplace learning. This college-based learning is state funded and apprentices receive a salary (€312 per week - Year 1 and €408 per week - Year 2) from their employer while on the tech apprenticeship programme.

Why Choose a Tech Apprenticeship?

- Training is fully-funded, and learners earn a salary from the very beginning

- Gain hands-on technical experience with top companies in Ireland

- Successful completion of all modules on this programme results in the attainment of a Quality and Qualifications Ireland-accredited Advanced Certificate in Software Development, which is placed at Level Six on the National Framework of Qualifications

- On successful completion of the programme, qualified apprentices have the potential to progress into full-time positions with their employers or in some cases with a new technology employer.

- Develop business and interpersonal skills such as teamwork, customer-facing skills and project management

Entry Requirements:

- Must be 18 years or older

- Will be required to complete an initial aptitude test

- Must have achieved a passing grade (or O6/H7) in 5 or more subjects, including Mathematics and English (both at Ordinary Level or above), in the Irish Leaving Certificate

- Must be eligible to participate in Further Education and Training programmes

- Must be entitled to study and work in Ireland

- Please note, there are some in-person days required in Dublin for this tech apprenticeship programme.

Please visit www.fit.ie to apply for this Tech Apprenticeship directly.

This is an all-female cohort. If you are interested in one of our other Tech Apprenticeship programmes in Software Development, Cybersecurity, Computer Networking, or Data Analytics (due to launch Autumn 2025 subject to QQI validation), then please our website visit www.fit.ie to discover our full Tech Apprenticeship schedule for 2025.

For more information please see **apprenticeship.ie**

Note: As part of the national apprenticeship system, there are formal requirements for approval of an employer's suitability to train apprentices and for registration of apprentices. Advertising on this site does not guarantee that Employers are approved to recruit and train for apprenticeship positions.
