Computer Networking Apprenticeship - CORK - Sept 2025 - Apprenticeship

Job Description

** PLEASE APPLY FOR THIS TECH APPRENTICESHIP PROGRAMME DIRECTLY ON THE FIT WEBSITE: https://fit.ie/apply-for-ictap-tech-apprenticeship/?campaign=cnindeed **

Computer Networking Associate Apprenticeship Overview

The Computer Networking Apprenticeship is a two-year programme designed for those who have recently completed second-level education or mature learners seeking to retrain. It is a dual-education programme involving both college-based and workplace learning. This college-based learning is state funded and apprentices receive a salary (€312 per week - Year 1 and €408 per week - Year 2) from their employer while on the tech apprenticeship programme.

Please note, this particular Computer Networking Apprenticeship will be taking place in person in CORK, and is suitable for tech enthusiasts located in CORK and surrounding areas. Please ensure that you can reliably travel to the training centre.

Why Choose a Tech Apprenticeship?

- Training is fully-funded, and learners earn a salary from the very beginning

- Gain hands-on technical experience with top companies in Ireland

- Successful completion of all modules on this programme results in the attainment of a Quality and Qualifications Ireland-accredited Advanced Certificate in Computer Networking, which is placed at Level Six on the National Framework of Qualifications

- On successful completion of the programme, qualified apprentices have the potential to progress into full-time positions with their employers or in some cases with a new technology employer.

- Develop business and interpersonal skills such as teamwork, customer-facing skills and project management

Entry Requirements:

- Must be 18 years or older

- Will be required to complete an initial aptitude test

- Must have achieved a passing grade (or O6/H7) in 5 or more subjects, including Mathematics and English (both at Ordinary Level or above), in the Irish Leaving Certificate

- Must be eligible to participate in Further Education and Training programmes

- Must be entitled to study and work in Ireland

** Please visit www.fit.ie to apply for this Tech Apprenticeship directly. **

Please note: the programme location will be in-person in Cork, however the training centre location may change.

Interested in one of our other Tech Apprenticeship programmes in Computer Networking, Software Development or Data Analytics (due to launch Autumn 2025 subject to QQI validation)? Then please our website visit www.fit.ie to discover our full Tech Apprenticeship schedule for 2025

For more information please see **apprenticeship.ie**

Note: As part of the national apprenticeship system, there are formal requirements for approval of an employer's suitability to train apprentices and for registration of apprentices. Advertising on this site does not guarantee that Employers are approved to recruit and train for apprenticeship positions.
