## Air Conditioning Technician

### Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

### Job Description

1. Install and set up new air conditioning systems, including installing units, ductwork, electrical connections, and refrigerant lines
2. Perform regular maintenance tasks like cleaning filters, checking refrigerant levels, and inspecting the system for wear and tear.
3. Diagnose issues with air conditioning systems and fixing problems such as refrigerant leaks, broken components, or electrical failures.
4. Identifying and resolving problems, such as poor airflow, faulty thermostats, or noise from the system.
5. Communicating with customers to understand their needs, explaining issues, and providing advice on maintaining systems
6. Recommending system upgrades or replacements when units become outdated or inefficient.
7. Diagnosing issues and finding efficient solutions to ensure that systems operate correctly.

- **Sector:** electricity, gas, steam and air conditioning supply

### Career Level

- Experienced [Non-Managerial]
