Job Description

Long Soft Limited is currently hiring a full time Website Network Maintenance & Development to join our team located at Apartment 25, Sidbury Court, Sidmonton Avenue, Bray, Wicklow, A98 XT86, Ireland

Duties:

1. Responsible for network support of JOYWAY's website-related products, ensuring stable website operation, and promptly identifying and resolving faults in clusters and running applications.

2. Participate throughout the entire lifecycle in building production reliability and quality assurance for business lines, ensuring business stability.

3. Containerized Cluster Setup and Maintenance: Build and maintain containerized platforms based on Docker and Kubernetes, including cluster planning, deployment, configuration, and optimization to ensure high availability and system stability.

4. System and Application Operations Support: Assist front-end and back-end developers in containerizing applications, promote the implementation of CI/CD pipelines, and achieve automated build, testing, deployment, and scaling.

5. Monitoring and Troubleshooting: Configure cluster monitoring systems to monitor resource utilization and operational status in real time, monitor website performance, and troubleshoot and resolve cluster and application issues promptly.

6. Security and Automation: Establish cluster security protection mechanisms, develop automation scripts and tools to improve operational efficiency and ensure system security.

Essential:

•   Minimum two years I.T. website network maintenance and development experiences and skills

•   Minimum Qualification: I.T. Website Network Maintenance and Development Degree relevant qualification

•   English and Mandarin Chinese language

Desirable:

• Permanent full time Contract and working hours 39 hours per week.

• Annual remuneration is €34,000.00

• Working location at Apartment 25, Sidbury Court, Sidmonton Avenue, Bray, Wicklow, A98 XT86,

Ireland
