PLUMBER / HEATING ENGINEER

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Our client is looking for an experienced plumbing installation technician with a focus on heat pumps and water filtration systems. You'll have hands-on experience working on both domestic and industrial projects. If you want steady, reliable work with a skilled and supportive team, this could be the role for you.

Key responsibilities

Install, maintain, and repair domestic and industrial plumbing, heating, and water filtration systems, including heat pumps.

Work from technical drawings and specifications to layout systems accurately

Order and manage stock for projects

Carry out plumbing, basic electrical, and concrete works related to installations

Build and wire electrical panels for water filtration systems

Collaborate with contractors and site teams

Conduct tests and inspections to ensure system safety and functionality

Maintain accurate records of work and materials
