In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the Eligibility and requirements for an employment permit if you are unsure of your eligibility to apply for this vacancy.

Job Description

UNSTOPPABLE POPULARITY BUSINESS SERVICE LIMITED is a newly established, dynamic advertising agency committed to crafting bold, innovative campaigns that captivate audiences and elevate our clients' brands. As a startup, we're building a cutting-edge digital presence to power our creative vision, and we need a talented Web Designer to bring our ideas to life. Join us to shape the future of advertising through stunning web experiences!

We're seeking a creative and skilled Web Designer to design and develop visually compelling, user-friendly websites that support our advertising campaigns and client objectives. This is an exciting opportunity to join a startup where your designs will play a pivotal role in delivering impactful digital experiences for a global audience.

Key Responsibilities

• Design and create responsive, visually appealing websites that align with client branding and campaign goals.

• Collaborate with our creative, marketing, and development teams to translate campaign concepts into engaging web experiences.

• Develop wireframes, prototypes, and high-fidelity designs using tools like Figma, Adobe XD, or Sketch.

• Ensure websites are optimized for performance, accessibility, and cross-browser compatibility.

• Incorporate SEO best practices and analytics integration to maximize campaign reach and effectiveness.

• Maintain and update web assets to reflect evolving client needs and industry trends.

• Create design documentation and style guides to ensure consistency across digital projects.

Qualifications

• Bachelor's degree in Graphic Design, Web Design, Computer Science, or a related field (or equivalent experience).

- 2+ years of experience in web design, UI/UX design, or a similar role.

- Proficiency in design tools such as Figma, Adobe Creative Suite (Photoshop, Illustrator, XD), or Sketch.

- Strong understanding of HTML, CSS, and JavaScript; familiarity with CMS platforms (e.g., WordPress, Webflow) is a plus.

- Experience designing responsive websites with a focus on user experience and accessibility (WCAG standards).

- Ability to thrive in a fast-paced startup environment with excellent problem-solving and time-management skills.

- A portfolio showcasing creative, user-focused web designs (please include a link in your application).

- Strong communication skills to collaborate with both technical and non-technical team members.

- **Sector:** professional, scientific and technical activities

Career Level

- Experienced [Non-Managerial]
