Construction - BIM Coordinator

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Liaise with Project Information Manager & Project Team to achieve the project objectives.

Collaborating with the wider team and support the Project Information Manager with implementation of project standards, methods and procedures in accordance with ISO 19650 Part 1 & 2: 2018

Ensure compliance with the client requirements as set out in the Project Exchange Information Requirements to ensure all project milestones are met on time and to the expected standards.

Implement and maintain digital plans on the project including the BIM Execution plan and Asset Management Plan.

Federating digital information received by Task Teams and prepare clash detection, data verification and model health check reports ensuring that the project modelling requirements are being met and communicate the issues identified to Design / Construction Lead and individual Task Teams.

Support the Design / Construction Lead for the coordination and management of Task Teams digital information models.

Develop and execute an overall BIM Coordination Schedule in line with the construction sequence to be used in BIM Coordination workshops and at project milestones.

Review and oversee the production of Task Teams as-built drawings and models.
