Construction - Fitter / Welder

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

The main duties and responsibilities of the Fitter / Welder are outlined as follows:

Work as part of a team in the delivery of one or more projects at any one time, embracing the ethos of a "one team" culture.

Ensure Health, Safety and Environmental standards, policies and procedures always adhere.

Review of design stage mechanical drawings and P&ID in order to validate designs, familiarise with the project, and spot issues before they arise. Provide input and feedback on design in order to contribute to DfMA efficiencies.

Work well on own initiative with a good work ethos to achieve a high production output.

Complete tanks, sub-assemblies & small parts as required.

Quantity and Quality of work to be of a high standard, free of defects and with attention to detail.

Ability to problem solve, able to complete tasks with minimal supervision

Complete all test documentation and inspection and test plans (ITPs) as required

An ability to weld in flat, horizontal, vertical and overhead positions.

Actively participate in product and process improvement by providing lessons learned feedback and innovative solutions for adoption on future projects.

Other duties as required from time to time.

Must be neat and have good housekeeping skills

Knowledge, Skills and Experience:

The main knowledge, skills and experience required of the Fitter / Welder are outlined as follows:

Minimum of 3+ years' experience working in a similar role

Experienced in TIG welding with flat, folded, and pipe projects.

Ability to liaise on a technical level with Engineering Department to support product improvements.

Must have basic Weld polishing & cleaning experience.

Ability to work as part of a team with excellent communication and interpersonal skills.

Ability to manage time when given a work list, including continuous feedback to the line manager on work close-out.

Main thicknesses used are 1mm to 6mm so the applicant must be comfortable with working on light materials.

Ability to use own initiative, problem solve and adjust as issues arise
