Job Description

Multiple Locations :

- 4 Cois Teampaill, Newcastle West, Co. Limerick, V42 A026
-

As an Refrigeration/Air Conditioning Engineer with Excel Cooling Services, you'll play an essential role in installing, maintaining, and repairing air conditioning systems for our clients. You'll work with innovative, energy-efficient technologies to ensure the comfort and safety of our customers. This is a fantastic opportunity for a proactive, customer-oriented professional to advance their career with a reputable company.

Excel Cooling Services, a leading provider of cooling and HVAC solutions, is seeking a Refrigeration/Air Conditioning Engineer to join our growing team in Newcastle West, County Limerick. Benefits including paid overtime and subsistence, this is an exciting opportunity for a motivated individual to play a key role in supporting the operation and maintenance of HVAC systems across a variety of client sites.

Key Responsibilities:

- Install, service, and repair a variety of refrigeration and air conditioning units.
- Diagnose and troubleshoot system issues efficiently, restoring systems to optimal performance.
- Conduct quality assurance tests and system checks to verify compliance with industry standards.
- Educate clients on system use, maintenance, and energy-saving practices.
- Maintain thorough documentation for all work performed and ensure safety compliance at all times.
- Collaborate closely with team members on larger installations and projects.
- Follow all company and industry safety guidelines to ensure a safe working environment and uphold regulatory standards.

What We're Looking For:

- Experience: Minimum 2 years' experience as an Air Conditioning Engineer or in a similar role.

- Qualifications: Relevant trade certifications (e.g., F-Gas, City & Guilds, NVQ Level 2/3 in Refrigeration & Air Conditioning).

- Skills: Excellent diagnostic and troubleshooting abilities, with strong communication skills and a customer-focused attitude.

- Attributes: Self-motivated, detail-oriented, and able to manage time effectively.

- **Sector:** electricity, gas, steam and air conditioning supply

Career Level

- Experienced [Non-Managerial]
