Job Description

Are you an experienced Electrical/ Generator Engineer looking for a new challenge? Join our growing team at our Dublin Depot and power up your career with KDM Hire Ireland! As a Generator Engineer, you will play a vital role in our operations, to ensure our electrical equipment is maintained to the highest standard. This position offers a diverse range of responsibilities, providing the opportunity to develop your technical skills, engage in continuous training, and tackle new challenges daily.

What you will do:

- Perform routine maintenance, servicing, and repairs on generators and a variety of other equipment.
- Deliver outstanding technical support and customer service to our clients.
- Diagnose faults and conduct preventative maintenance.
- Conduct on-site servicing and repairs throughout Ireland, including event setup.
- Ensure all job and service records are completed accurately and promptly.
- Maintain a clean and safe working environment, adhering to all safety procedures.

What you will need:

- Keen attention to detail and strong problem-solving skills, particularly with electrical faults.
- Strong communication skills and a customer-focused mindset.
- Relevant electrical/electronic qualification and extensive electrical knowledge.
- Mechanical skills, with experience in hydraulics and mechanics. A mechanical qualification is a plus.
- Full driving licence.
