Steel Finishing Operative

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

We are expanding our innovative, award-winning team and currently seeking a Steel Finishing Operative

The Steel Finishing Operative is part of the team that cleans, prepares, finishes and assembles parts and materials for O'Carroll Engineering projects to ensure timely finishing and dispatch of orders.

The Steel Finishing Operatives will work closely with each other, and will report to the Dispatch Supervisors and Workshop Supervisors as required. The Steel Finishing Operative must ensure to communicate with, and follow instructions of, supervisors to ensure the smooth running of the finishing yard and maintain the highest level of quality control. The Steel Finishing Operative must ensure all OCE policies and procedures are adhered to at all times.

Each Steel Finishing Operative is responsible for checking their own work prior to completing work on that job. If there is any doubt seek guidance from a Supervisor.

Health and Safety is a priority and therefore in the role of Steel Finishing Operative you are required to adhere to all Personal Protective Equipment (PPE) requirements and safety instructions at all times.

Main duties:

Grinding, cleaning and preparing steel

Shot-blasting steel

Bolting, banding and assembling steel parts

Assisting painter

General maintenance, cleaning, operational functions

Quality control of own work

Ad hoc tasks as required

Assist in other General Operative roles as required

Ensuring all parts are clean and in an acceptable condition

Movement of materials as required

Gathering items for transport

Requirements of Steel Finishing Operative:

Previous experience in handling steel

Experience in sanding, preparing and painting

Undertake training as required

Flexibility to move between projects

C Driving Licence (desirable)

Basic IT skills

The Steel Finishing Operative role requires a minimum of 39 hours per week, Monday to Friday across one, two and three shift cycles. A reasonable level of overtime may be required to ensure the fulfilment of the requirements of this role.
