Qualified Electrician

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

As a qualified electrician, you will collaborate closely with our plumbing installation teams on the retrofit installation of heat pump systems. Your role will also involve the maintenance and servicing of solar PV panels.

This is a fast-paced position that requires strong initiative, a proactive mindset, and excellent problem-solving and communication skills. You'll be working both independently and as part of a wider team on a range of residential and industrial projects.

Key Responsibilities

- Electrical installations for heat pump retrofits
- Maintenance and servicing of solar PV panels
- Diagnosing and resolving electrical faults
- Working independently and collaboratively with plumbing and technical teams
- Ensuring all works comply with current electrical standards
- Daily/weekly reporting to the General Manager
- Supporting a safety-first culture on all job sites

Requirements

To be considered for this role, you must:

Be a fully qualified electrician.

Have experience in both residential and industrial environments

Hold a valid Safe Pass

Hold a valid Manual Handling certification

Demonstrate strong fault-finding and problem-solving skills

Be a clear and effective communicator

Have the ability to manage your workload and responsibilities with minimal supervision.

Possess strong decision-making skills under pressure

Have excellent knowledge of current electrical standards and regulations

Desirable

Experience working on renewable energy systems

Previous work with heat pump or solar PV installations

Additional industry certifications

What We Offer

Competitive salary (negotiable based on experience)

Ongoing product and technical training

A supportive, team-oriented work environment

Opportunities to grow with a forward-thinking company at the forefront of renewable energy

About Us

We are a fast-growing renewable energy company passionate about creating sustainable energy solutions for residential and industrial settings. With a strong pipeline of projects, we are now expanding our team and looking for experienced, qualified electricians to join us in delivering high-quality installations and maintenance services for heat pumps and solar PV systems.
