Construction Manager

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

We are expanding our innovative, award-winning team and currently seeking a Construction Manager.

General scope of role:

Reporting to the Senior Construction Manager, the Construction Manager is a client facing role who provides support and expertise to site projects for OCE primarily in Dublin and greater Leinster locations.

Direction for the role:

Preparation/implementation of Risk Assessment and Method Statements (RAMS)

Lead/maintain regular site meetings online/face to face for the entirety of the project

Liaise with design management, scheduling, production, fabrication, H&S and site management

Attend/Lead regular site visits from project inception to completion, to maintain consistent communication with Site Management

Ensure project is run in accordance with approved drawings and specifications

Ensure all OCE works are carried out in accordance with OCE and site-specific health, safety, environmental and legislative requirements

Drive and encourage high performance to meet OCE's standards

Build and maintain strong relationships with clients, consultants, contractors and other stakeholders within site projects

Ensure ongoing innovation in site project

Monitor projects and communicate any relevant matters to affected parties

Work in conjunction with clients and internal managers to ensure projects are carried out accurately, high quality is achieved and that suitable timelines are maintained

Ensure projects are delivered on time and within budget

Drive Lean Manufacturing to ensure best value in all site project activities

Develop and present KPIs to outline departmental performance

Consistently developing and improving processes, systems and controls

Develop, implement and adhere to relevant company policies and procedures

Ensure compliance with all certification requirements, e.g. ISO9001 and EN1090

This list serves as an overview of the role and responsibilities and is not exhaustive

Competencies of the Construction Manager

A relevant 3rd level qualification in Construction Management or equivalent

A minimum of 3-5 years on-site experience

In-depth technical, practical and working knowledge of large scale site projects

Experience in managing, motivating and influencing in a dynamic environment of rapidly changing workload, tight deadlines, in the context of high expectations and tight time frames

Analytical thinker and effective communicator with decision making and problem solving skills

Efficient work-flow, time and project management skills

Strong and effective professional relationship builder with excellent commercial awareness

Excellent interpersonal skills and a team player

You will be expected to attend training courses, seminars and business meetings where necessary to assist you in carrying out these duties.

This Job Specification is not exhaustive and is subject to change in line with business and operational requirements.
