Mechanical Automation and Maintenance Fitters (MAMF) - Apprenticeship

Job Description

Job Description

First Year Apprentice Vacancy

Howden Tools is a leading supplier of Tools, Garage, and Workshop Equipment in Ireland and the UK, with a growing online presence. We serve customers through our dedicated e-commerce platforms in both regions, as well as from our flagship store in Bawnboy, Ballyconnell, Co. Cavan, which has been operating since the 1960s.

We currently employ over 30 full-time professionals at our Cavan location. Our workforce represents a broad range of expertise, including engineering, administration, logistics, sales, and marketing. We foster a collaborative and supportive work environment with a strong sense of community. For those with an interest in tools, machinery, and precision equipment, Howden Tools offers an exceptional career opportunity.

Why Join Us?

Competitive, experience-based remuneration packages

Career development and training opportunities

A positive, team-oriented workplace culture

The stability and reputation of a long-established industry leader

We are looking to recruit 2 No 1st year Mechanical Automation and Maintenance Fitters (MAMF). As an apprentice you will work under the guidance of skilled staff and learn hands on skills in the installation, maintenance and repair of mechanical, hydraulic and automated equipment.

Key Responsibilities:

Observing and learning from skilled technicians in the maintenance and repairs of all types of machinery.

Learning tasks like marking out, measuring, drilling, tapping, reaming and fastening components under instruction.

Safely using and maintaining various workshop equipment including lathes and grinding machines.

Assisting in the repair and fabrication of replacement parts using techniques like welding, brazing

and soldering.

Reading and understanding drawings and diagrams to assemble machines and fit replacement parts.

Work collaboratively to drive a safe and compliant culture.

During the 4 year MAMF apprenticeship, the MAMF apprenticeship will be required to follow a specific course of

training and undergo a series of assessments to confirm that they have reached the industry standard required

for a MAMF Maintenance Fitter.

Maintaining a logbook to record completed projects and skills learned during the apprenticeship.

Requirements:

A junior certificate or equivalent.

Ability to work with your hands and be physically active.

A strong interest in mechanical and automated systems.

A commitment to understanding and following health and safety procedures in the workplace
