Welder/Fabricator

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Metal fabrication is the process of creating or building a usable product out of metal. Raw materials are bent, shaped, welded or cut to complete the final product. All of the tasks during the fabrication process, from start to finish, are completed at the hands of a welder fabricator.

Welding fabricators cut, join, and shape metal and other materials, using heat and a range of tools. They are required on construction projects of all sizes.

=> Welder Fabricator Duties and Responsibilities:

*Read Blueprints: Welder Fabricators must be able to read and interpret blueprints and engineering plans. The Welder Fabricator will use the blueprints along with other data, such as work plans, to develop and design their welding projects

*Fabricate Metal Objects: Fabrication involves laying out, cutting, fitting, measuring, and welding metals to create the desired shape or object. This is highly detailed work and requires the Welder Fabricator to be knowledgeable of many techniques and tools.

*Inspect Work and Equipment: A Welder Fabricator must constantly inspect and test welds and equipment. Welds are checked for durability as well as meeting specified standards and equipment must be examined to determine if repairs or new equipment is needed.

=>Professional Skills:

- Experienced in a variety of practices and techniques related to welding;
- Operational knowledge of manufacturing and welding applying TIG and MIG;
- Knowledge of operating general metal shop equipment and tools;
- Familiarity with executing welding operations compliance to the safety policies;
- Ability to use variety of tools and equipment;

- Basic math skills and mechanical aptitude;
- Ability to read blueprints and recognize welding symbols and specifications;
- Knowledge of industry safety practices;

- **Sector:** manufacturing

Career Level
