Job Description

Job Description

Company: Re-Cell Technology Solutions Ltd

Contract Type: Full-time, Permanent

Salary: €34000

Role Overview:

The Business Analyst will support Re-Cell Technology Solutions Ltd in optimising business processes, improving project outcomes, and ensuring that business and technology teams are aligned in delivering efficient solutions. The successful candidate will analyse data, document requirements, and propose system and process improvements that contribute to the company's growth.

Key Responsibilities:

- Analyse business operations, processes, and data to identify opportunities for efficiency and improvement.
- Liaise between business stakeholders and technical teams to ensure clear understanding of requirements.
- Prepare business and functional documentation including process maps, use cases, and system specifications.
- Evaluate data trends and produce analytical reports to support business decisions.
- Support the implementation of IT and operational improvement projects.
- Ensure all business processes and documentation align with company goals and compliance standards.

Key Requirements:

- Master of Science in Business Analytics, Data Analytics, Information Systems, Computer Science, or related discipline.

- Minimum of 2 years' experience in a business analysis, systems analysis, or project coordination role.
 - Excellent analytical, problem-solving, and communication skills.
 - Proficiency in MS Office and experience with ERP, CRM, or BI tools (e.g., Power BI, Tableau) is an advantage.
 - Strong organisational and documentation skills with attention to detail.
-
- **Sector:** information and communication
