Mechanical Maintenance Technician

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Perform planned/unplanned maintenance of the Customer facilities and installation of equipment.

Troubleshoot, repair, or refurbish standard equipment and systems components.

Carry out on-site welding wherever required.

Manufacture fabricated in-house parts required for onsite installation.

Drive to meet targets, and identify and implement innovations to improve service delivery.

Ensure clear and concise communication with management regarding the progress of work allocated while following instructions from site personnel.

Follow task briefings and appropriate safe systems of work, and ensure that Company policies and procedures are always followed.

Adapt to changing instructions as specified in task requirements.

Ensure that all health and safety legislation and company policies are adhered to, within own level of responsibility, including following company processes, protocols, and documentation.

Undertake duties of a general nature that may be required by your manager as deemed necessary for the efficiency of the business.
