Medical Technical Assistant

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

The role of the Medical Technical Assistant is to work, in co-operation with the Medical Director and laboratory management, as part of a team in the provision of diagnostic laboratory services in accordance with company policies. You will actively contribute to the operation of a quality management system in compliance with ISO15189 INAB standards and co-operate with the Laboratory Manager(s) and with other senior personnel in training staff as required.

Roles and Responsibilities

- Assist in the preparation and processing of patient samples for analysis, ensuring adherence to laboratory protocols and quality standards.
- Operate and maintain laboratory instruments, including setting up, calibrating, and troubleshooting equipment as necessary.
- Perform routine and specialised laboratory techniques under the supervision of senior laboratory staff.
- Maintain and manage laboratory instruments, ensuring they are clean, functional, and ready for use. Perform regular checks and routine maintenance as required.
- Assist in the development and validation of new laboratory methods, under the guidance of senior scientists or laboratory management.
- Monitor inventory levels of laboratory supplies and reagents, ensuring adequate stock for laboratory operations.
- Participate in quality control procedures to ensure the accuracy and reliability of laboratory results. Document and report any discrepancies or issues in accordance with laboratory protocols.
- Strictly adhere to laboratory safety protocols and procedures, ensuring a safe working environment for all laboratory staff.
- Participate in safety audits and contribute to the continuous improvement of laboratory safety practices.
- Participate in ongoing training to enhance technical skills and laboratory knowledge, with a focus on advancing towards a Medical or Clinical Scientist role.

- Work closely with the sample receipt team and Medical Laboratory Aides (MLAs) to ensure the seamless transfer of samples from the receipt room to the laboratory.
- Collaborate with laboratory scientists and other technical staff to optimise laboratory workflows and enhance overall efficiency.
- Undertake any other laboratory-related tasks or projects as directed by laboratory management, contributing to the overall success of the laboratory team.

Qualifications and Experience

- Leaving Certificate or equivalent, and a Leaving Certificate pass (or equivalent) in a biological science.
- A 3rd level science qualification is desirable but not essential, full training provided.
- Further qualification(s) in any laboratory discipline, clinical laboratory experience or work in an accredited environment is desirable but not essential.
- Able to work both independently and as part of a team.
- Good analytical, critical thinking and problem-solving skills.

- **Sector:** professional, scientific and technical activities

Career Level

- Experienced [Non-Managerial]
