Metal Fabrication Apprenticeship

Job Description

In conjunction with SOLAS, the Metal Fabrication Apprentice will learn on-the-job skills to ultimately equip them to become a Metal Fabricator.

Direction for the role:

- Read 3D technical drawings to assess job requirements
 - Use technologically advanced techniques such as BIM to extract job specific information
 - Measure, mark, cut and tack steel materials
 - Engage in safe workshop practices including marking out, drilling, tapping, riveting
 - Work with a variety of specialised hand and power tools
 - Assemble components
 - Install steel systems on sites
 - Assist in various manufacturing processes; finishing, assembly etc.
 - Adhere to safe systems of work and company policies and procedures
 - Ensure compliance with all certification requirements, e.g. ISO9001 and EN1090
- *This list serves as an overview of the role and responsibilities and is not exhaustive

Structure of Metal Fabrication Apprenticeship:

- Run in line with SOLAS guidelines
- Phased block releases to Education and Training Board facilities and Institutes of Technology

More information available here:

Competencies of the Metal Fabrication Apprentice:

- Successful completion of relevant Junior and/or Leaving Certificate subjects; e.g. Engineering, DCG, Construction Studies, Mathematics, Metalwork, Technical Graphics
- Proven aptitude for metal works, e.g. fabrication, welding work experience
- Desire to be part of an innovative and growing team
- Excellent team player

SOLAS entry requirements available here: <https://apprenticeship.ie/career-seekers/get-started/learn-more/engineering/metal-fabrication-l6>

Apply with current CV and official Leaving and/or Junior Certificate results to careers@ocarrollengineering.com stating Metal Fabrication Apprenticeship in the email title.
