Mechanic - Apprenticeship

Job Description

Job Description

First Year Apprentice Vacancy*

What the job and learning is really about:

- Picking up new skills: You'll be learning hands-on stuff all the time, building up your knowledge and skill.
- Learning from the mentor: Working alongside experienced mentor and picking up tool and tricks of the trade.
- Staying safe: Health and safety rules matter — they keep you and everyone else protected.
- Getting stuck in: You'll be working with vehicles, tools, and equipment, and moving around a lot.
- Owning your work: The quality of what you do is on you, so you take pride in it.
- Using the gear: Special service tools, materials, and equipment become part of your daily routine.
- Figuring things out: Reading diagrams, following instructions, and solving problems when systems break.
- Hands-on fixes: Taking apart mechanical systems, checking them, and putting them back together.
- Testing tech: Making sure electrical and electronic systems are working properly.
- Keeping records: Writing down what you did so others can understand the work.
- Managing your learning: Setting aside time to study and practice.
- Passing exams: Theory, practicals, and skill demos — all part of the journey.
- Earning while learning: You're paid as you train, which is a nice bonus.
