Designer–Draughtsperson

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Our client, Loughryan Engineering Services Limited, based in Clonmel, Co. Tipperary, is currently seeking Designer–Draughtsperson for immediate start at their facility in Clonmel, Co. Tipperary.

Key Responsibilities & Duties

- Produce high-quality structural steel detailing drawings and 3D models. The successful candidate will support engineers, fabricators, and project managers by creating accurate fabrication and erection models, drawings, and documentation for a wide range of steel construction projects.
- Develop detailed structural steel 3D models using Tekla Structures.
- Produce fabrication drawings, general arrangement drawings, and assembly details to industry standards.
- Prepare accurate bills of materials (BOMs), cutting lists, bolt lists, and reports from the Tekla model.
- Interpret structural and architectural drawings, specifications, and design intent.
- Identify and communicate design discrepancies, clashes, and coordination issues.
- Collaborate with engineers, project managers, fabricators, and site teams to ensure buildable solutions.
- Apply connection design principles (bolted and welded) in accordance with project requirements.
- Update models and drawings based on design changes and revision requests.
- Ensure all detailing conforms to relevant codes, standards, and company quality procedures.
- Maintain organised drawing files, revision history, and documentation.

Requirements: Skills & Experience

- Candidate must be competent to carry out all job role duties listed above
- Minimum of 3 years of previous proven experience as a Designer–Draughtsperson, Steel Detailer, or Tekla Technician in a previous role
- Strong proficiency in Tekla Structures (modelling and detailing).
- Experience in structural steel fabrication and erection processes.
- Understanding of steelwork connection design and associated standards.
- Ability to read and interpret engineering drawings and specifications.
- Experience working on commercial, industrial, or infrastructure steel projects
- Excellent attention to detail and accuracy.
- Strong problem-solving and spatial awareness skills.
- Ability to manage multiple projects and meet deadlines.
- Effective communication and teamwork abilities.
- Good organisational skills and document management.
- Knowledge of other CAD software (AutoCAD, Advance Steel, Revit) is an advantage.

Annual remuneration: €34,000.00; Pay rate €16.77 per hour

Work Location: Loughryan Engineering Services Limited, Loughryan, Grange, Clonmel, Co. Tipperary, E91 ED78.

Number of hours work each week: 39

If you're interested in this role, please apply with an up-to-date CV to info@crewitresourcing.com or call 019020688 to enquire for more details.
