Successful applicant will play a key role in monitoring and operating plant equipment, gathering data, maintaining records, and preparing machinery for maintenance and operations. In this hands-on role, you'll identify and troubleshoot equipment issues, interpret P&ID drawings, carry out isolations, and ensure safe, efficient processes in line with company procedures. We're looking for candidates with strong technical competency, solid understanding of health, safety and environmental practices, the ability to diagnose faults, use digital tools, and communicate effectively across teams. If you're safety-focused, detail-oriented, and eager to contribute to a high-performing production environment, we'd love to hear from you. The role offers 39 hours per week with an annual salary of €34,000–€40,000. Interested applicants please send your CV to info@aureolglobalconnections.com

- **Sector:** water supply; sewerage, waste management and remediation activities
