## Graduate Engineer

### Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

### Job Description

Glanua Graduate Programme

Our programme is designed to provide you with a holistic view of the water and wastewater industry by exposing you to various aspects of water treatment, distribution, and wastewater management through structured rotations.

Commencing in September each year, each rotation lasts for 6 months, during which you will gain experience in our Pre-contract, Design, Build and Asset Management departments and have the unique opportunity to experience a rotation in one of our sites in Ireland.

Our graduates will become familiar with both our Municipal and Industrial sectors and gain both office and site experience.

What we're looking for:

We're seeking ambitious, driven, and innovative engineering graduates who are passionate about making a positive impact on the world.

We are looking for recent graduates from all Engineering disciplines including:

BEng Civil Eng

BEng Mechanical Eng

BEng Electrical Eng

BEng Applied Electronics and Instrumentation

BEng Process Engineering Management

BEng Innovative Technology

BEng Environmental Science

Higher Certificate in Science in Water and Wastewater Operations

BEng Energy

What we offer:

**Hands-On Learning:** The opportunity to gain hands-on experience by working alongside industry experts on some of the largest water infrastructure projects in Ireland and the UK.

**Full-rounded experience:** By rotating through our different departments and projects you will gain exposure to various aspects of the water and waste treatment industry including water treatment processes and wastewater collection.

**This comprehensive experience will equip you with a well-rounded skill set and a deeper understanding of the challenges and opportunities in the industry.**

**Professional development:** Throughout the programme, you will receive mentorship and guidance from experienced professionals. They will help you navigate your career path, develop technical expertise, and build essential skills to maximize your potential.

**On successful completion of the 2-year programme, a number of permanent positions will be offered within Glanua.**

- **Sector:** water supply; sewerage, waste management and remediation activities

### **Career Level**

- Entry Level
