Construction - Electrical OR Electrical & Instrumentation (E&I) Apprentice - Apprenticeship

Job Description

As an Electrical & Instrumentation Apprentice, you will work alongside a fully qualified Commissioning Engineer who will mentor you throughout your training. You'll gain hands-on experience in maintaining, troubleshooting, and repairing electrical and control systems used in water and wastewater treatment facilities.

Key Responsibilities

- Follow all safety procedures and company policies, including lockout/tagout and confined space requirements.
- Assist in the installation, maintenance, and calibration of electrical and instrumentation equipment, including flow meters, pressure transmitters, level sensors, analysers, quality monitoring equipment and control systems.
- Support troubleshooting of control panels, PLCs, motor control centres, and SCADA systems under supervision.
- Perform preventive maintenance tasks and record results accurately.
- Learn to interpret electrical schematics, wiring diagrams, and instrumentation loop drawings.
- Maintain tools, equipment, and work areas in a clean and safe condition.

Requirements:

- Must have at least 2 - 3 years' experience
- Good attitude & willingness to Learn
- Flexibility to travel to various sites
- Full clean driver's license

Official Apprentice Rates offered.
