Metal Fabrication - Apprenticeship

Job Description

First Year Apprentice Vacancy

About Us:

Murphy is a leading international, specialist engineering and construction company founded in 1951 with a purpose to improve life by delivering world-class infrastructure. Operating in the United Kingdom, Ireland, Canada, USA and Australia, Murphy provides better engineered solutions to infrastructure sectors including transportation, water, energy and natural resources. We also have a number of related businesses – Ground Engineering; Utility Connections; Plant; Process Engineering; Pipeline Testing Services; Specialist Welding Services and Electrical Services.

Murphy is a specialist in delivering pipelines, design, structural steel, tunnelling, fabrication, bridges and piling, and has a substantial holding of plant, equipment and facilities. Murphy employs more than 4,300 engineers, professional managers and skilled operatives around the world. Together, we work as 'One Murphy' by directly delivering the people, plant and expertise needed to make projects a success.

Main Purpose of Role:

Murphy are hiring an apprentice metal fabricator to work in our head office in Newbridge Co. Kildare. Our Apprenticeship Programme is full time for 4 years with a combination of workshop & classroom with SOLAS. With this four-year apprenticeship, you will become a fully qualified metal fabricator, with a QQI Level 6 Advanced Craft Certificate.

This is an exciting opportunity to join an established Contractor. The successful candidate will join the Murphy Apprenticeship Programme. Murphy is committed to providing the very best development opportunities for our intakes. Murphy focus on recruiting and retaining our employees so that the company can continue to develop and succeed within the industry.

Role Duties:

To undertake assigned activities under the direction of the Supervisor or Team Leader.

Be enthusiastic & committed to the team's purpose and share responsibility for performance.

Ensure all work is completed to the appropriate levels of safety, quality & cost.

Producing the deliverables/products to agreed specifications.

To take care of any safety equipment / tools provided and ensure they are used correctly.

Work as part of a team & contribute towards successful communication.

Participate in, and positively promote, the Murphy Never Harm Programme.

Undertake any reasonable duties expected of you.

Carry out all work in accordance with health and safety and any other legal requirements.

Ensure compliance with the Company policies and procedures.

Attend and engage fully in any learning and development activities that are deemed appropriate by your apprenticeship.

Participate and engage fully in company appraisal/performance review processes and constantly work to improve your individual, your team and the wider group's performance.

Assist in measuring, marking, cutting and tacking steel materials,

For more information please see [apprenticeship.ie](https://www.apprenticeship.ie)

Note: As part of the national apprenticeship system, there are formal requirements for approval of an employer's suitability to train apprentices and for registration of apprentices. Advertising on this site does not guarantee that Employers are approved to recruit and train for apprenticeship positions.
