Job Description

Endress+Hauser (Ireland) Ltd Global Logistics Operations Center based in Exchequer House, Embassy office park, Kill, Co. Kildare, W91W866 are currently recruiting for

Freight Settlement/Data Analytics Experts – Global Logistics Operations Centre (G-LOC)

Annual Salary €45k DOE + Benefits

Hours of Work 37.5 hours weekly

Your Tasks:

- Establish and refine standard processes and SOPs for rate structure systems in our Global Logistics Portfolio.
- Analyze procurement quotations to define, create, and maintain price components for Transportation (Courier, Express Road, Air Ocean, Rail) and Contract Logistics Services.
- Administer and oversee duration of rate agreements with suppliers.
- Oversee Logistics Service Provider (LSP) invoices, including various document types (pdf invoice, CSV validation), ensuring content alignment (charge codes) and format, re-upload as needed.
- Review invoice discrepancies and lead communication to LSPs for clarification.
- Proactively verify timely receipt of invoices from providers at the start of each month.
- Record and execute settlement of Spot market prices reported via ticket or IT systems.
- Architect and establish comprehensive reporting and dashboards to assess KPIs in collaboration with management, encompassing aspects like invoices delivery and currency performance.
- Facilitate onboarding and training of new LSPs.
- Conduct quantitative ad-hoc analyses, using visual analytics, development of algorithms and machine learning as needed.

- Create data visualizations and dashboards (primarily using Tableau Software) for both financial and non-financial logistics aspects.
- Collaborate closely with the business teams to understand business challenges and devise data-driven solutions.
- Operate primarily within the cost control team while maintaining active engagement with the larger G-LOC team.

Your Profile

- Bachelor's degree in Logistics, Data Analytics, or related fields, coupled with several years of pertinent experience.
- Strong experience in freight forwarding coupled with a strong affinity for data analytics. A secondary education with accounting background with logistics and freight costs focus would be an advantage.
- Possess the knowledge of rate structures and day-to-day logistics operations to contextualize freight settlement.
- Experience in crafting master data for rate management within the Logistics Cost Management Tool of business IT partners or familiarity with similar freight settlement tools.
- Proficiency in Excel or similar tools (PowerBI, Tableau, etc.) are desirable.
- Fluency in spoken and written English. One additional language like Polish, German, Chinese would be an advantage.
- Having a driver's license would be a huge plus.
