Ashphalt Supervisor

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Asphalt Supervisor oversees operations and directly supervise and coordinate the activities of workers engaged in construction and related civil engineering tasks. They ensure projects are completed efficiently, safely, and in compliance with design specifications and industry standards.

Tasks and Responsibilities: Directly supervises and coordinates the activities of road surfacing and civil engineering workers and/or subcontractors. Manages and monitors work schedules to meet productivity requirements; Oversees the setup and operation of machinery and equipment specific to road surfacing, such as pavers, rollers, and graders. - Lliaises with managers, contractors, and other stakeholders to resolve operational and technical challenges. Ensures compliance with health and safety regulations and industry standards across all activities. Determines or recommends resource requirements, including staffing, materials, and equipment, to meet productivity and quality goals. Conducts inspections to ensure work adheres to project specifications, quality standards, and timelines. Reports regularly to managerial staff on progress, challenges, and outcomes of road surfacing and civil engineering projects.
