Steel Fabricator

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Background on our Organisation:

Flood Ironworks Ltd are located in Enniscorthy, Co. Wexford. We specialise in stainless steel architectural Ironworks, structural glass, structural steel platforms, walkways, balconies and stairways.

Due to continued growth and expansion and with ongoing large scale Dublin and local projects in works, we are now delighted to be able to announce a new position which we now invite you to apply for.

We are seeking an experienced Steel Fabricator to join our production team. The successful candidate will be responsible for turning raw steel materials into high-quality components for engineering and construction projects.

Key Duties:

- Read and interpret technical engineering drawings and blueprints.
- Measure, mark, and cut steel pieces using saws, plasma cutters, and torches.
- Shape steel components using bending machines, presses, and rollers.
- Assemble and join steel parts using MIG, TIG, and Arc welding techniques.
- Ensure all fabricated parts meet precision tolerances and structural integrity standards.
- Perform quality control inspections and routine maintenance on fabrication equipment.

Requirements:

- Minimum of 3 years of documented experience in steel fabrication and welding.
- Strong ability to read and interpret complex technical drawings.
- Proficiency in MIG/TIG welding and operating fabrication machinery.
- Trade certification or equivalent practical "time-served" experience.

- Good communication skills and a commitment to health and safety standards.

Job Types: Full-time, Permanent
