HGV Mechanic

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Pay: €16.77 per hour

Job Description:

A HGV Mechanic is responsible for the inspection, maintenance, diagnosis, and repair of diesel-powered heavy goods vehicles and other material-handling equipment. This role ensures all machines operate safely, efficiently, and in compliance with safety regulations.

Key Responsibilities

1. Maintenance & Repair

- Perform routine inspections, maintenance, and overhauls on diesel forklifts and telehandlers (1 tonne to 24 tonne), including engines, transmissions, hydraulics, electrical systems, brakes, and steering mechanisms.
- Rebuild or replace faulty components, such as fuel injection systems, motors, transmissions, and hydraulic systems.
- Conduct preventative maintenance according to manufacturer schedules.

2. Diagnostics & Troubleshooting

- Use diagnostic software and mechanical tools to identify equipment issues.
- Test forklifts post-repair to ensure proper functionality and safety compliance.

- Record all faults, repairs, and maintenance performed.

3. Safety & Compliance

- Follow all workplace safety standards and environmental regulations.
- Maintain a clean and organized workshop area.
- Ensure forklifts meet safety inspection standards before being released for use. • Adhere to manufacturer and company policies regarding servicing and repairs.

4. Documentation & Reporting

- Complete maintenance logs, inspection reports, and repair documentation accurately. • Communicate repair status, cost estimates, and timelines with supervisors.

Required Skills & Qualifications

- Education: Trade certification or qualification in HGV Mechanics, Heavy Vehicle Maintenance, or a related field.

- Experience: 2–5 years of experience as a diesel mechanic, preferably with forklifts or material-handling equipment.

- Technical Skills:

- Proficiency in mechanical, hydraulic, and electrical systems.

- Ability to use diagnostic software and mechanical tools.

- Welding and fabrication experience (advantageous).

- Other Skills:

- Strong problem-solving and diagnostic ability.

- Attention to detail and safety-conscious attitude.

- Ability to work independently and within a team.

- Good communication and reporting skills.

Working Conditions

- Workshop or warehouse environment, sometimes outdoors.
- May involve lifting heavy parts and working in physically demanding positions.
- Standard work hours (45 hour working week).

Job Type: Full-time

Work Location: In person

- **Sector:** construction
