Job Description

About the role

As a 2D FX Artist, you will create high-quality visual effects such as fire, dust, water, magical elements, and environmental FX for animated productions. Working in Toon Boom Harmony, you will use hand-drawn and technical techniques to support storytelling and visual quality in a fast-paced production environment.

We really value can-do attitudes here at Lighthouse. If you're someone who thinks outside the box and looks for solutions, not problems, then you'll fit right in.

What you'll be doing

Create and animate high-quality FX in Toon Boom Harmony using hand-drawn techniques and Harmony's technical features.

Design, build, and reuse FX assets where appropriate.

Work on assigned shots while following department workflows, processes, and naming conventions.

Maintain and organise your work and files in line with studio standards and production requirements.

Apply creative and technical problem-solving to achieve desired visual results.

Collaborate with the FX Lead, Supervisors, and Production team to meet creative and technical goals.

Communicate progress and any challenges clearly and professionally.

Ensure work meets quality standards and production deadlines.
