## Construction - Site Manager

### Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

### Job Description

The main duties and responsibilities of the Site Manager are outlined as follows:

Responsible for mobilisation and demobilisation of our worksite/s.

Co-ordinate and control construction activities ensuring the project runs to schedule and budget.

Day to day management of site activities, including supervising and monitoring the site operations and carrying out briefings as necessary, preparing RAMS and ensuring compliance.

Key onsite contact for all Project stakeholders, clients, supply chain partner and visiting parties.

Ensuring plant and materials are ordered and supplied as required in a timely manner.

Checking drawings and quantities, ensuring that the information is accurate for the work.

Always promote exceptional safety and delivery quality standards.

Ensuring that activities are planned, organised and monitored to ensure safety, time constraints and quality requirements are met.

Ensuring that all site non-conformities are reported and resolved.

Ensure all cost aspects are managed proactively and controls are in place.

Forecasting and management of supervision and direct labour across worksites.

Overall ownership and accountabilities for their worksites.

Skills / Experience Required:
