Job Description

What's Your New Role About?

Stats Perform is looking for a Team Lead for their Rugby Data Operations department. In this role, your primary responsibility will be supervising the collection operations and ensuring that the data is captured to the highest possible standard in the most timely and efficient manner. You will be managing 15 part-time staff and be directly involved in their shift allocation as well as being a point of contact for them throughout their shifts.

Here's Your Role Broken Down:

Supervising live and post data collection for our Rugby Operations.

Problem solve during live operations and proactively look to drive and implement process and workflow improvement.

Ensure training of new hires is conducted in a time effective manner producing analysts who are of the required standard to fulfil our collection obligations

Have a constant focus on data quality and building an environment that promotes continuous improvement.

Work to consistently meet the departmental KPIs.

Ensure that client complaints are dealt with in a timely and efficient manner, investigate root cause analysis and implement preventative actions.

Manage designated projects from start to finish, report to Rugby Ops manager on progress, flag blockers and ensure all stakeholders are aware of status and timelines.

Be a people manager to your direct reports. Ensure there are clear expectations around what is required for performance and behaviour. Have open, regular communication with analysts.

Ensure that the Data Operations team adhere and comply to all ISO 9001:2015 objectives and regulations.

Do You Have These Essentials?

A great attitude

Ability to multitask and prioritise

Strong work ethic and attention to detail

Ability to communicate within a team and to a wider department

A strong feel for quality control and identifying errors

A strong familiarity and interest in Rugby

Evening and weekend and night-time availability essential

It Would Be Great If You Had These Desirables Too:

Excel, Power BI, or SQL experience

In depth knowledge of major rugby competitions

Analysis or Sports Coding experience

Here is A Little More About Us:
