Freight Planner

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

The TMM Freight Planner is responsible for managing and optimizing all inbound and reverse freight movements from more than 40 international suppliers into our customer's end location. The role oversees an annual transportation budget of €4M+ and coordinates 600+ freight movements per year across air, ocean, road, and express modes. A key part of the role is managing a global network of logistics partners—including haulage providers, customs brokers, ocean carriers, air freight carriers, and expedite agents.

In this role, you will be managing the tracking and completion of shipments through internal ERP system

Creating and managing shipping line orders from OEM or Consolidated Gas/Chemical points and updating the internal ERP system

You will be scheduling of incoming deliveries and outgoing returns with offsite warehouse ensuring all functions perform as per agreement

In addition, you will be working closely with Supply Chain Manager highlighting any delays within the supply chain

Managing all customs entries and working closely with delegated Freight Clearance provider

Furthermore, you will act as a point of contact for all of the shipping line and consolidated warehouse activities for your managed lane

You will ensure all related supplier invoices are resolved in your area

This role will be ensuring we are compliant and highlight immediately any concerns around potential Quality or Safety issues

As part of this role flexibility is required in order to work extended hours when required to provide continuous freight support

- This vacancy is suitable for Remote/Blended working
- **Sector:** transportation and storage
