## Technical Officer – Veterinary Medicine (Anatomy)

### Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

### Job Description

The overall objective of this post is to provide technical support to staff and undergraduate veterinary medicine students during veterinary anatomy and pathology practical teaching sessions. The appointee will be located primarily at Teagasc Kildalton College with responsibility for the set-up and running of the veterinary anatomy and pathology dissection laboratories. They will source and preserve cadavers for teaching and research, ensuring compliance with all health and safety, biosecurity, and legislative requirements. The role involves the development and implementation of SOPs, risk assessments, and safety protocols, liaising with suppliers, and assisting with the safe handling of large animals as required. They must ensure laboratories are clean, well maintained, and adequately resourced. The postholder may be required to travel periodically to the SETU Cork Road campus to undertake duties as assigned. The appointee must be flexible, use their own initiative and adapt to new technical challenges to enhance the services of the Department.
