Web Development Assistant - WPEP Scheme

Application Details

This Work Placement Experience Programme provides Participants with an opportunity to gain meaningful work experience, learning and training while on the programme. This programme is for jobseekers who are in receipt of qualifying social welfare payments and those transferring from a social welfare scheme or an ETB Training Allowance.Your eligibility for this programme will be verified by the Department as part of the application process.

Job Description

Ireland Website Design is seeking a web development assistant to join our team to learn the ropes of building modern websites.

The successful candidate will get to have a good sense of web development and could become an experienced front end web developer on completion of the placement.

We are seeking an enthusiastic individual with a willingness to learn and work in an agile creative agency environment where a supportive atmosphere is available with a team of developers to work along side.

This will be a Work Placement and Experience Programme role.

About Ireland Website Design

We are Ireland Website Design, we are a brand transformation studio, we push creative boundaries and develop strategies that transform businesses. Our entrepreneurial spirit and passion drive us to find new paths for some of the most recognized brands in Ireland. We are a collaborative group who work hard for our clients and work hard together to ensure our organisations and team's success.

Experience you will gain:

 - Working/assisting with HTML, CSS and JavaScript

 - Using AI tools

 - Understanding of UX/UI design

 - Capabilities to create and precisely translate designs into functioning websites.

 - Knowledge of Figma to extract designs

- Knowledge of SEO

You will get to try out the latest tools in the web industry such as:

- Figma

- Shopify

- WordPress

- Teamwork

- Slack

- cPanel

What's in it for you:

- Career progression and a strong mentoring program with hands on training.

- Getting experience under a current web developer.

- The chance to assist/learn at an innovative web agency.

- We work in a space where our creative minds run free.

As a result of this placement you will hopefully be ready to work in the web industry developing websites.

Role Description

This is a training and work experience opportunity; no prior experience in this role is necessary. Accredited and/or sector recognised training will be provided to support your placement. Participants are eligible to participate in the WPEP QQI Work Experience Module which was developed by the Education & Training Boards in collaboration with the Department of Social Protection. This optional module will fulfil your accredited training requirements for the WPEP.

The participant will receive formal/informal training and mentoring in the following:

Formal:

Building & Maintaining websites in WordPress

Coding in HTML and CSS

Using Figma prototyping tool

Other CMS platforms such as Shopify and Joomla

Informal Training:

Testing web projects before deployment

Working with other team members on web projects including eCommerce websites

Sitting in on client meetings with other web developers

Using project management tools like Teamwork

Search Engine Optimisation of websites

Troubleshooting issues
