## Mechanic - Trade Qualified

### Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

### Job Description

A family-owned business, established in 1980, NVD was set up to assist vehicle manufacturers in the timely and incident free distribution of their products. We've established ourselves as a one stop shop providing the three main pillars of outbound logistics, including transporting, storing and enhancing our customers' vehicles, prior to delivery to their end location. Since 1980 NVD has been at the forefront of pioneering the digitisation of the FVL industry. As early adopters of emerging technology we have been able to introduce huge efficiencies saving time and money for our customers. Our unwavering commitment to progress and continual service improvement remains at the heart of our business today.

The ideal candidate is a mechanical, automotive production specialist.

### Pay and Benefits

€46,779.72

Pension Scheme

Staff Purchase Schemes:

Tyres

Employee Assistance Programme

Discounted Gym Membership

Bike to Work

New state of the art workshop

### Key Responsibilities

Carry out complex mechanical tasks including Frame replacement and component replacement to manufacturer standards. Diagnose and resolve mechanical faults with precision, ensuring a high standard of workmanship.

Apply lean techniques to improve efficiency and streamline mechanical repair processes.

Maintain and follow Standard Operating Procedures (SOPs) to ensure consistency and quality of repairs.

Ensure all repairs are completed in full compliance with vehicle manufacturer specifications and

safety standards.

#### Requirements

Qualified Mechanic (A Must)

Main dealer experience essential

Proven mechanical experience in an automotive or similar technical environment.

Strong hands-on skills in mechanical repairs, including dismantling, fitting, and assembly of components.

Experience working with diagnostic tools, workshop equipment, and technical manuals.

Familiarity with lean methodologies and process-driven environments is advantageous.

self-motivated and capable of leading by example in achieving repair efficiency and quality targets.

Must have own tools (Tool Purchase Scheme available after 6 months).

Full valid driving licence required.

#### Skills

Mechanical aptitude with strong fault-finding and repair capabilities.

Excellent problem-solving skills and attention to detail in all mechanical tasks.

Effective communication and teamwork skills, with the ability to share knowledge and support colleagues.
