Technical Operations & Compliance Lead

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Role Overview: We are seeking a Technical Operations & Compliance Lead for our Cork-based retail hub. This role is designed for a candidate who can blend day-to-day retail excellence with specialized technical responsibilities. You will be the point person for our E-liquid Products Tax (EPT) compliance, hardware maintenance, and digital growth.

Key Responsibilities:

Regulatory Management: Lead the store's compliance with the Finance Act 2024. You will manage the E-liquid Products Tax (EPT) registration, ensuring all first-supply stock is recorded and bi-monthly ROS (Revenue Online Service) returns are filed accurately.

Hardware Specialist: Act as the in-house expert for advanced ENDS (Electronic Nicotine Delivery Systems). This includes device troubleshooting, maintenance of high-end hardware, and advising customers on technical specs like coil resistance and battery safety.

Product Development & Expansion: Assist in sourcing new emerging products. You will evaluate the technical builds of new devices and e-liquid formulations to ensure they meet the HSE 20mg/ml nicotine limit and TPD standards.

Compliance Oversight: Manage the HSE Nicotine Inhaling Product Licence and ensure the store's "Track and Trace" records are maintained for statutory audits.

Digital Presence: Oversee our online product listings, ensuring all technical descriptions are accurate and that our digital presence complies with Irish distance-selling laws.

Requirements:

A strong technical understanding of vaping hardware (circuitry, battery safety, and device maintenance).

Familiarity with digital reporting systems (ROS experience is a major plus).

Detailed knowledge of Irish e-liquid legislation (EPT and Public Health Act 2023).

Excellent communication skills for high-level customer advisory.
