## Licenced Aircraft Maintenance Engineer

### Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

### Job Description

Dublin Aerospace is a Maintenance Repair Organisation (MRO) based in Dublin, Ireland specialising in Airbus A320 / A330 and Boeing 737 series aircraft, Landing Gear and APU overhaul. We are a leading player in the MRO market in Europe and have established ourselves as a high quality, reliable service provider.

We currently have a number of vacancies for Licenced Aircraft Maintenance Engineers in our Base Maintenance Department. Reporting to the Check/Zone Leader duties will include:

Performing maintenance work of all levels on Boeing 737 and Airbus 320 & A330 Series aircraft in accordance with prescribed airworthiness standards;

Detailed/General visual inspections on Airbus and Boeing aircraft.

Removal/installation of all major/minor components of Airbus and Boeing aircraft.

Carry out routine/non routine rectification on Airbus and Boeing aircraft

Troubleshooting and fault finding of aircraft systems under time constraints.

Lubrication and servicing of all aircraft components and moving parts.

Certifying his/her own work carried out and also certifying and overseeing other technicians work whom are uncertified/unlicensed.

Perform duties as assigned by Check/Zonal Leader ensuring that all work is completed in a timely fashion and meets the delivery requirements of the customer;

Ensuring work is carried out to the highest standard and ensuring the safety of the aircraft at all times;

Use the IT systems available as directed throughout the department to log the work they complete;

Ensuring that all work performed is recorded on the appropriate paperwork and signed for on a progressive basis;

Ensuring the correct use and control of aircraft parts and materials;

Ensuring that their work area is kept clean and in an orderly condition;

Adhere to all company, regulatory and Health and Safety procedures;

Adhere to the relevant airport regulations and procedures

Essential Requirements:

Hold a current EASA Part 66 B1/B2 Licence with type Rating;

Minimum of 5 years experience working on either A320, A330 or 737NG/CL aircraft;

A good knowledge of MRO computer systems

Strong communication skills oral and written;

Ability to read and comply with repairs and instructions from the relevant manual

Ability to work on own initiative, be self-motivated and flexible in their approach to work

Proven problem solving and decision making skills

A good sense of commercial awareness

Ability to work within a team

Fluency in English, both spoken and written

Be able to pass a 5 year security background check

Permitted to live and work in the Republic of Ireland without restriction
