## TB Laboratory Supervisor

### Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

### Job Description

Enfer Labs was set up with the specific aim of providing a quality driven laboratory testing service to the agriculture and food sectors in Ireland and internationally. Operating to the ISO17025 quality standard, it is the largest private commercial veterinary laboratory in Ireland utilizing many unique systems and processes to deliver a high sample throughput with rapid results. It holds several contracts with the Department of Agriculture, Food and the Marine.

Enfer Labs has an opportunity for a supervisor in our Bovine TB laboratory. The main responsibility of the job will be the efficient day to day running of the laboratory which includes culture, PCR and immunoassay techniques. The successful applicant will be responsible for the work of a team of technicians including efficient use of resources, turn around times and reporting of results and will report to the Laboratory Manager.

The successful applicant will possess at least three years experience in a molecular laboratory preferably with additional experience of culture/sensitivity and immunoassay testing for microbiology. In addition they will have at least 6 months experience in an ISO15189 accredited laboratory in a supervisory capacity. Experience in Mycobacterium culture and isolation and familiarity with the Thermofisher Bovigam immunoassay will be a distinct advantage

They will also have obtained at least a level 8 qualification on the national framework of qualifications or equivalent in a relevant subject.
