Manufacturing Technology (Level 6) - Apprenticeship

Job Description

As an Apprentice Manufacturing Technician, you will:

Support the operation and monitoring of processing equipment, including injection moulding and extrusion machines, to ensure efficient production of contact lenses.

Conduct regular inspections on raw materials, intermediate products, and finished goods to verify compliance with quality standards and specifications.

Gather and record data related to production volumes, process parameters, and quality metrics, assisting in the analysis for continuous improvement purposes.

Participate in routine maintenance tasks, helping to keep machinery and equipment in good working condition.

Work alongside experienced technicians to troubleshoot equipment malfunctions and resolve production line issues promptly.

Follow all health and safety protocols to maintain a safe working environment, including the proper use of personal protective equipment (PPE).

Work collaboratively with colleagues in various roles, including engineers, production operators, and quality assurance personnel, to ensure smooth operations on the production floor.

Engage in on-the-job training programs to learn about materials, processing techniques, and industry standards related to medical device manufacturing.

Actively participate in continuous improvement initiatives by suggesting and implementing process enhancements and efficiency measures based on observations and training.

Required Qualifications:

Educational Background: Leaving Certificate, Grade 06 at ordinary level in 5 subjects, including a pass in Math and a language (English or Irish preferred)

Attitude: A positive demeanour and a hard-working ethos

Experience: Practical experience is desirable but not required

Joining our team means becoming part of a groundbreaking medical device operation within a Johnson & Johnson company that prioritizes continuous professional development and business improvement. We are passionate about our work and value our commitment to our customers and communities.

As part of our team, you will enjoy:

Mentorship Programs: Dedicated support for your growth and development

Global Impact: An opportunity to work with a market leader in the medical field

Dynamic Environment: An inspiring workplace that fosters creativity and innovation

Challenging Projects: Opportunities to tackle complex assignments

Personal and Professional Growth: Level 6 SOLAS accredited technical qualification at the end of 2-years apprenticeship program

Excellent Benefits: Including Pension, Healthcare, Bonus, Onsite Gym, and more!

At Johnson & Johnson, we want every candidate to feel supported throughout the hiring process.

Our goal is to make the experience clear, fair, and respectful of your time.

Here's what you can expect:

Application review: We'll carefully review your CV to see how your skills and experience align with the role.
