Plumber / Plumbing Technician

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Role Overview:

We are seeking a versatile and skilled Plumber to join our team. This role is unique: you will handle high-quality installations for our residential/commercial projects, but you will also serve as our go-to expert for ongoing maintenance and preventative care. We need someone who can build a system from scratch and keep it running for years to come.

Key Responsibilities:

Installation: Install, repair, and maintain pipes, valves, fittings, drainage systems, and fixtures.

Routine Maintenance: Conduct regular inspections of plumbing systems to identify and replace worn-out components before they fail.

Troubleshooting: Diagnose complex leaks, clogs, and pressure issues in existing commercial and residential buildings.

Documentation: Keep clear records of maintenance logs and parts replaced.

Requirements:

Certification: Valid Plumbing License/Journeyman card preferred.

Experience: 2+ years in the field (Mix of New Construction and Service/Maintenance highly valued).

Technical Skills: Proficient in reading blueprints and technical drawings.

Adaptability: Comfortable switching between a dusty construction site and a finished, professional

environment for maintenance calls.

Tools: Must have a basic set of personal hand tools.

Apply Now:

Please apply with your CV and a short introduction of your background and experience. We'd love to hear about a time you solved a difficult maintenance issue!
